INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Belmont-Redwood Shores School District
Belmont, California

We have audited the accompanying financial statements of the 2005 General Obligation, Series A Bond Fund of Belmont-Redwood Shores School District as of and for the year ended June 30, 2009 as listed in the table of contents. These financial statements are the responsibility of Belmont-Redwood Shores School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 2, the financial statements present only the 2005 General Obligation, Series A Bond Fund and do not purport to and do not present fairly the financial position of Belmont-Redwood Shores School District, as of June 30, 2009 and the changes in its financial position for the year then ended in conformity with the accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the 2005 General Obligation, Series A Bond Fund of Belmont-Redwood Shores School District as of June 30, 2009, and the changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS
2005 GENERAL OBLIGATION, SERIES A BOND FUND
FOR THE YEAR ENDED JUNE 30, 2009**

NOTE 1 - A. BACKGROUND

Belmont-Redwood Shores School District (The District) issued 2005 General Obligation, Series A bond on August 30, 2007. The 2005 General Obligation Series A Bonds represent all of the bonds authorized at an election held on November 8, 2005. The voters authorized the issuance and sale of \$25,000,000 of general obligation bonds to finance the acquisition of land and the construction of a new elementary school and to pay the cost of issuance associated with the bonds. The Bonds are being issued by the County on behalf of the District under and pursuant to the provisions of Chapter 2 of Part 10 of Division 1 of Title 1 of the Education Code of the State of California, and other applicable laws, and all laws amendatory thereof or supplemental thereto insofar as they govern, and pursuant to the provisions of the District Resolution and the County Resolution.

The Bonds were authorized by the voters of the District pursuant to provisions of the Constitution of the State of California including Proposition 39, the initiative passed by voters on November 7, 2000, permitting approval of certain general obligation bonds of school and community college districts by a 55% vote.

B. DEFINITION OF THE FUND

The 2005 General Obligation, Series A Bond Fund (Bond Fund) is used to account for the expenditures related to the acquisition and the construction of the new school.

The fund is part of the Building Fund of the District and represents only the expenditures incurred under the fund.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of Presentation - The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board.

The budgetary and financial accounts of the District have been recorded and maintained in accordance with the Department of Education's *California School Accounting Manual*.

B. Fund Structure - The accompanying financial statements are used to account for the transactions of the bond fund and are not intended to present fairly the financial position and results of operations of the District in conformity with accounting principles generally accepted in the United States of America.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied.

The bond fund is accounted for using the modified accrual basis of accounting. Its revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current fiscal period. Expenditures are recognized in the accounting period in which the liability is incurred (when goods are received or services rendered).

D. Budgets and Budgetary Accounting

The Board of Trustees adopts an operating budget no later than July 1 in accordance with state law. This budget is revised by the Board of Trustees during the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

E. Assets, Liabilities, and Equity

1. Deposits and Investments

Cash balances held in bank and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation.

In accordance with Education Code Section 41001, the District maintains substantially all its cash under the fund in the San Mateo County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The County is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

2. Capital Assets

Property, plant and equipment used in the fund operations are accounted for in the government-wide financial statements of the District. Thus, they are not included in the accompanying financial statements.

3. Long-Term Obligations

The District reports long-term debt of the fund in the liabilities section of the District's statement of net assets.

4. Fund Balance Reserves and Designations

Reservations of the ending fund balance indicate the portions of fund balance not appropriable for expenditure or amounts legally segregated for a specific future use. These amounts are not available for appropriation and expenditure at the balance sheet date.

Designations of the ending fund balance indicate tentative plans for financial resource utilization in a future period.

5. Deferred Revenue

Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

NOTE 3 - CASH AND INVESTMENTS

The cash and investments under the bond fund consist of the following at June 30, 2009:

Cash in County treasury	\$ <u>14,049,467</u>
Total cash and investments	\$ <u><u>14,049,467</u></u>

Cash with County treasury – The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis. Information regarding the characteristics of the entire investment pool can be found in the County's June 30, 2009 basic financial statements. A copy of that report may be obtained by contacting the Controller's Office, County of San Mateo, 555 County Center, Redwood City 94063.

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

<u>Authorized Investment Type</u>	<u>Maximum Remaining Maturity</u>	<u>Maximum Percentage of Portfolio</u>	<u>Maximum Investment In One Issuer</u>
Local agency bonds, notes, warrants	5 years	None	None
Registered state bonds, notes, warrants	5 years	None	None
U.S. Treasury obligations	5 years	None	None
U.S. Agency securities	5 years	None	None
Banker's acceptance	180 days	40%	30%
Commercial paper	270 days	25%	10%
Negotiable certificates of deposit	5 years	30%	None
Repurchase agreements	1 year	None	None
Reverse repurchase agreements	92 days	20% of base	None
Medium-term notes	5 years	30%	None
Mutual funds	N/A	20%	10%
Money market mutual funds	N/A	20%	10%
Mortgage pass-through funds	5 years	20%	None
County pooled investment funds	N/A	None	None
Local agency investment fund (LAIF)	N/A	None	None
Joint powers authority pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. Weighted average maturity of the District's investment in County Pool is 1 year.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The San Mateo County Pool and the State Investment Pool are not rated.

NOTE 4: TRANSFER-OUT

In accordance with the bond indenture, an amount of \$24,809 should be deposited into the Debt Service Fund held by the County. Upon issuance of the bond, this amount was deposited in the bond fund. During the year, the District transferred this amount to the Debt Service Fund in order to be in compliance with the bond indenture.

NOTE 5: CONSTRUCTION COMMITMENTS

As of June 30, 2009, the District had the following commitments with respect to the unfinished capital projects related to Bond Fund:

<u>Capital Project</u>	<u>Remaining Construction Commitment</u>	<u>Expected Date of Completion</u>
New School	\$ <u>12,256,608</u>	June 2010
