#### **Students**

The Governing Board's goal is to provide enrollment options that meet the diverse needs and interests of district students. To that end, the Board has eliminated school attendance areas and established a district-wide attendance area. Students who reside within district boundaries may apply for enrollment in any district school. The Superintendent or designee shall determine the capacity of each school and establish an unbiased process and school assignment criteria for assigning students to district schools.

The Board retains the authority to maintain appropriate racial and ethnic balances among district schools at its discretion or as specified in applicable court-ordered or voluntary desegregation plans.
